Financial Change
Matthew 6:19-24

Money is a very sensitive topic for several reasons:

- We see it as defining us.
- We see it as a means for security.
- We see it as a means for control.

All of these reasons end up enslaving us.

God intended money to be a tool that is used to show His glory and invest in His kingdom.

When we have a right relationship with money we will experience freedom and life that comes through obedience and participation.
